

LEEZ

DEPARTMENT STORES

Company Profile

Established 2011

Along with establishing several successful brands in London and New York, we also started and grew a number of successful brands on the internet. We carry products that are both OEM and from our selected partners. Leez is a concept that we conceived to tie our different brands together with our partners in a unique way. We are constantly looking to partner with brands to enhance our portfolio and to provide our partners entry into the global markets.
